PROFILE

My background brings together humanities research, digital technologies and human-centred design. My work connects critical thinking with practical digital methods, from explainable recommendations to cultural data analysis.

EDUCATION

MA Digital Humanities | King's College London | 2025-2026

BA French and Film & Media | Birkbeck, University of London | 2022-2025

LEADERSHIP & EXPERIENCE

Student Representative | King's College London
Represented student perspectives, communicated with academic staff and supported constructive dialogue across the department.

Collaborative Project Coordination | Rewritten, King's College London
Helped coordinate an interdisciplinary team, align responsibilities with individual strengths and deliver a shared digital design project.

SELECTED PROJECTS

Rewear - MA dissertation: Platform audits, a Python/Streamlit explainable fashion recommender and an interactive Figma marketplace prototype focused on transparency and user autonomy.

Europeana Fashion: Independent metadata critique using a 300-record API sample, Python text analysis, KWIC and SPARQL experiments.

Rewritten - group project: Information architecture, user flows, UI/UX design, visual direction and project coordination for an East London cultural heritage app concept.

SKILLS & TOOLS

Research & Critical Analysis: Qualitative research, cultural analysis, media analysis, comparative research

UX & Product Design: Figma, information architecture, prototyping, user flows

Storytelling & Visual Communication: Storytelling, visual storytelling, narrative development, visual literacy

Data & Technology: Python, pandas, Pillow, Streamlit, API analysis, HTML/CSS

Collaboration & Communication: Project coordination, stakeholder communication, intercultural communication
